\*Course Notes:

|           |  |
|-----------|--|
| *MKTG 431 | This course has been improving rapidly, no need to include.  |
| *CSC 210  | Given the relatively high average DFW% earned and high URM gap, this course should be considered for inclusion.                      |
| *MATH 227 | This course has the second highest average DFW% earned and should be considered for inclusion.                                       |
| *ENG 216  | This course was not taught S19 and F19, so it has fewer total DFW grades earned. Moreover, it has moderate average DFW% and URM gap. |
